Craig P. Orgeron, Ph.D., Executive Director

Memorandum

To: ITS Customers Requesting Security Hardware and/or Software

From: Craig P. Orgeron, Ph.D.

Date: May 17, 2012 (*date extension*)
           February 24, 2011 (*original date of publication*)

Re: Security Hardware and Software Express Products List RFP No. 3612 Instructions for
           Use

CC: Project File 38242

The Mississippi Department of Information Technology Services (ITS) has established a procurement vehicle for obtaining security hardware and software for the wide area, local area and other network based systems used by ITS and its customers (state agencies and institutions).

1.   **Scope**

      RFP No. 3612 was created to establish a Vendor pool for the acquisition of security hardware and software. The Vendors on this list were qualified by ITS based upon their proposal responses to Request for Proposal (RFP) No. 3612 to provide the necessary security hardware and software.

      This procurement does <u>not</u> include security risk assessment or security consulting services. If security assessment or security consulting services are required, procurement of those services should follow state law and established policy for procurement of IT services. Security Assessment Services may be purchased using the Security Risk Assessment Services RFP No. 3606. Security Consulting Services may be purchased using the Security Consulting Services RFP No. 3610. The Instructions for Use for both RFP No. 3606 and 3610 are available on the ITS Web Site (www.its.ms.gov).

      Some Vendors are in the Vendor pools for both RFP No. 3606 and this RFP No. 3612. A State customer should not use the same Vendor for both security risk assessment services and security hardware and software purchases. Likewise, some Vendors are in the Vendor pools

for both RFP No. 3610 and this RFP No. 3612. A State customer may use the same Vendor for both security consulting services and security hardware and software purchases.

For more information on using any of the Security EPLs, refer to the ITS Web Site or call the ITS Procurement Help Desk at (601)576-HELP.

The ITS Information Security Division has created and maintains the State's Enterprise Security Policy and Enterprise Security Plan. Both of these documents can be found at http://www.its.ms.gov/services_security.shtml (ACE Login Required).

2.   **Who May Use**

This EPL may be used by Mississippi agencies, universities, community/junior colleges and governing authorities (cities, counties, school districts, etc.). ITS EPLs are multi-vendor awards that meet Mississippi requirements for legal purchases.

State customers are not required to use the products on this list for security hardware and software products. Customers desiring to procure security hardware and software products from Vendors other than those on this list should follow state law and established policy for procurement of IT products and services.

3.   **Dollar Limitations of Use**

The maximum dollar limitation of this list is $100,000 per purchasing entity per fiscal year.

4.   **Effective Dates**

This list of approved Vendors for RFP No. 3612 is valid until February 23, 2014 or until revised or replaced by a new list of Vendors.

5.   **Using RFP No. 3612 for Security Hardware and Software Products**

The individual Vendors have provided the information used to publish this list. Questions regarding specifications should be directed to the Vendor providing the item.

5.1   *Step 1: Contact the Vendor(s)*

If the total cost of the proposed security hardware and/or software is less than $50,000.00 then the customer may use Security Hardware and Software EPL No.3612 without obtaining two quotes. For projects exceeding $50,000.00, the customer is required to obtain a Statement of Work or price quote from a minimum of two of the Vendors before beginning the security hardware/software engagement. Agencies

must work with Vendors to formulate the scope of the security hardware/software engagement and its fixed cost.

Agencies may refer to *Exhibit B: Vendor Product Offerings* for a summary of the product categories and manufacturers offered by each Vendor. The list of security hardware and software products and manufacturers offered by each Vendor is different from the list for the other Vendors. Therefore, agencies may have to evaluate products that are functionally equivalent but not manufacturer equivalents in order to meet the two quote requirement.

5.2   *Step 2: Negotiate/Evaluate*

ITS evaluated product offerings to make sure they meet specifications and for cost. EPL customers must still do their own evaluation to support that they are choosing the hardware/software and Vendors that meet their "lowest and best" criteria.

Although cost in most cases will be the main consideration, there may be other factors to consider and that deserve merit. ITS recommends no more than 40 total scoring points for the factors shown below:

- Vendor Qualifications, including organization's experience providing similar security-related hardware/software products. References may be requested and verified.

- Functional/Technical Requirements, including responses to specific questions posed in the Request for Quote/Statement of Work.

- When applicable, project plan/staffing, including the plan outlined in the Statement of Work to accomplish the services, deliverables identified, and staff/team members to perform the services. Resumes may be requested, along with individual references.

ITS requires that cost be at least 60% of the score. No more than 40 points may be awarded for non-cost points. ITS has already evaluated the Vendors using both cost and non-cost factors, including Vendor qualifications, and selected a small award of five security hardware/software Vendors.

Customers should compute the cost score as a ratio of the difference between a given proposal's cost and the cost of the lowest valid proposal. The following cost scoring formula should be used for every cost evaluation:

Points awarded for cost = (1 - [(B-A)/A])*n
Where:
A = Total lifecycle cost of lowest quotation
B = Total lifecycle cost of quotation being scored

n = number of points allocated to cost for this procurement

In simpler terms, lowest price gets a perfect cost score. A proposal that is 20% more expensive than the lowest priced proposal gets 20% fewer cost points.

Scoring Matrix Example

Scoring Factor	Max points	Low Cost	Vendor 1	Vendor 2
Cost of Security Hardware/Software	n= 60	$145,000 "A"	$150,000 "B"	$145,000 "B"
"the math"			(1-[(150,000 – 145,000)/145,000]) * 60	(1-[(145,000 – 145,000)/145,000]) * 60
Points for cost	60	60	58	60
Non-cost points				
History with Vendor	25	NA	25	20
Quality and Responsiveness of the Statement of Work	15	NA	15	15
Total Score	**100**		**98**	**95**

In this scenario, Vendor 2 would have been awarded if cost had been 100% of the evaluation.
When considering other evaluation factors, Vendor 1 would have been awarded.

Variations on the above example may include:
- Cost is between 60 and 80 points, for instance, 80 points, and only 20 points are awarded for some of the additional factors. In the table above, the customer would let "n=80".

- In the example in the table, all forty non-cost points could be "History with Vendor" if the customer has strong feedback (positive or negative) regarding the vendor choices. Cost would be 60 points (n=60), History with Vendor = 40, all other factors = 0.

The customer must document each Vendor's score for each of the evaluative factors as part of customer's purchase file.

5.3   *Step 3: Verify Pricing and Availability*

Check for publisher price decreases and quantity discounts before placing an order. If the pricing has decreased, the vendor can offer the lower price. **Prices may not be raised.**

Substitutions may be made only when an offering is replaced through a manufacturer's version upgrade or new release, the new product is the technical equivalent, AND the purchase price of the new product does not exceed the original quoted price. Vendor must provide you with written clarification that the substitution is equivalent to or better than the original.

5.4   *Step 4: Consider installation, support/maintenance, and training*

Not-to-exceed hourly rates are published in *Exhibit A: RFP 3612 Vendor Information*. These service rates are to be used only in conjunction with hardware and/or software purchased from this EPL.

5.5   *Step 5: Place your order*

Place orders directly with the Vendor. Please reference RFP Number 3612 on your purchase order together with hardware and/or software description. Confirm all orders with the vendor and then issue appropriate purchase orders.

6.   **What Goes in Your Purchase/Audit File**

At a minimum include:

  i.   A copy of this Instructions for Use Memo.

  ii.   A copy of the document sent to Vendors to request the Statement of Work/Quote.

  iii.   Copies of the Vendors' Quotes/Statements of Work.

  iv.   A copy of the evaluation methodology, Vendor's scores, and
         documentation/justification for each score.

  v.   A copy of the purchase order.

  vi.   Any additional project-related documentation or justification.

  vii.   Signed Confidentiality Agreement. See sample in Item 12 below.

7.   **Vendor Notification of Outcome**

As a courtesy to the Vendors that provided quotes/statements of work, the customer should provide the Vendors with written notification (email, fax, or letter) of the outcome of the quote solicitation, including the name of the awarded Vendor and the total dollar amount of the award.

8.   **RFP 3612 Vendor Information**

See the attached Vendor Information for the list of Vendors approved under RFP No. 3612 and each Vendor's contact information. Please contact the Vendors directly to discuss any questions regarding their services or pricing, and to request Statements of Work/Quotations.

9.   **Contract**

ITS has executed a Master Purchase Agreement with each valid Vendor and purchases made from this RFP will be governed by those Terms and Conditions. If you would like a copy of a Vendor's executed agreement, please contact the ITS Procurement Help Desk at (601) 576-HELP(4357).

10.   **Travel Considerations**

Vendors were required to provide a fully loaded rate in response to RFP No. 3612 and provide any travel related assumptions as part of their Cost Information Submission. Fully loaded rates include travel, subsistence, and any project related expenses. Customers must require Vendors to include a not-to-exceed estimate of travel fees, if any, with the Statement of Work/Quote and should include these costs in the cost evaluation. Travel fees are negotiated between the Vendor and customer, and should include the following considerations:

a.   Does Vendor charge from the time he leaves his office or from the time he arrives at the customer site?

b.   Is the estimate for one-way or two-way travel?

c.   Is the estimate per technician or per vehicle?

d.   If the Vendor office is local, Vendors may be able to lower the hourly rate since travel is not involved.

11.   **American Recovery and Reinvestment Act (ARRA) of 2009**

While ARRA requirements are still evolving and some current EPLs were established prior to the establishment of federal rules concerning the use of ARRA funds, to the best of our knowledge and current assessment, ITS believes the EPLs are valid purchase instrument for the use of ARRA funds.

The Master Purchase Agreements executed with each valid Vendor for this EPL No. 3612 include ARRA-related terms and conditions. These terms and conditions have been created in conjunction with the Mississippi Office of the State Auditor and the Mississippi Department of Finance and Administration.

ITS recommends that customers using these instruments for purchases using ARRA funds obtain written quotations from multiple EPL sellers, that the request for quotations state that ARRA funds will be used for the purchase, and that all quotations be maintained in the purchase file.

12.   **Confidentiality Agreements**

Before beginning any security consulting work, the Vendor and customer must sign a Confidentiality Agreement. A sample Confidentiality Agreement is attached to these instructions as Exhibit C.

13.   **Object Codes**

ITS, in conjunction with the Office of the State Auditor and the Department of Finance and Administration, requests that all agencies carefully code purchases with the correct Minor Object Codes. State agencies that utilize the Statewide Automated Accounting System (SAAS) should use the following object codes on purchase order documents for purchases from this List:

Object Code:	Category:	Use For:
61902	IT Professional Fees	Outside Vendor Payments to an outside vendor for IT consulting and personnel services such as consulting studies, project management, staff management, IT staff augmentation, and analysis, design, development/enhancement/installation of software, hardware, or cabling.
61921	Software Acquisition, Installation, and Maintenance	
63421	IT Equipment	

14.   **To Report a Problem or Request Assistance**

If you have questions about using the list or if you have any problems please contact Donna Hamilton of ITS at (601) 432-8114, Jay White of ITS at (601) 432-8180, or contact the Vendor directly from the contact information provided.

15.   **Copies of this document are available on the Internet at**

CONFIDENTIALITY AGREEMENT

This Confidentiality Agreement (hereinafter referred to as "Agreement") is entered into by and between INSERT NAME OF VENDOR a INSERT STATE OF INCORPORATION corporation (hereinafter referred to as "Contractor") having an office at INSERT STREET ADDRESS FOR VENDOR, and {INSERT NAME OF CUSTOMER AGENCY}, having its principal place of business at {INSERT STREET ADDRESS FOR CUSTOMER AGENCY} (hereinafter referred to as "Customer Agency"). Contractor and the Customer Agency are collectively referred to herein as "the Parties".

WHEREAS, confidential information (hereinafter referred to as "Information" and "Confidential Information") may be used for evaluating transactions between the Parties; and

WHEREAS, the Parties desire to protect any such confidential information, and each of us agrees that the following terms apply when Customer Agency (Discloser) discloses Information to the Contractor (Recipient);

NOW THEREFORE, in consideration of the mutual understandings, promises and agreements set forth, the parties hereto agree as follows:

ARTICLE 1   DISCLOSURE OF INFORMATION
Information will be disclosed either:

1) in writing;
2) by delivery of items;
3) by initiation of access to Information, such as may be in a data base; or
4) by oral or visual presentation.

Information should be marked with a restrictive legend of the Discloser. Excluding Information obtained via electronic access, if Information is not marked with such legend or is disclosed orally, the Information will be identified as confidential at the time of disclosure.

ARTICLE 2   USES AND OWNERSHIP OF CONFIDENTIAL INFORMATION
Confidential Information will be used for evaluating transactions between the Parties and/or their employees. Duplication, distribution or disclosure of any Confidential Information to any persons other than the Parties' employees who (a) are actively and directly participating in the evaluation of the transaction or (b) those who otherwise need to know such information for the purpose of evaluating each transaction, and who agree to keep such information confidential and be bound by this Agreement as if they were signatories is strictly prohibited. Before disclosure to any of the above mentioned employees, the Contractor will have a written agreement with the

party sufficient to require that party to treat Information in accordance with this Agreement. The Contractor will also maintain a list specifying to whom Confidential Information has been disclosed and shall deliver to the Customer Agency, upon written request, a copy of such list, specifying the Confidential Information disclosed or provided and the date on which such Confidential Information was first disclosed. Both Parties agree to the determination of the other regarding the classification of their Confidential Information and to take appropriate steps to safeguard it from disclosure. The Contractor agrees to take appropriate steps to safeguard the Confidential Information from disclosure by using the same degree of care as the Contractor uses to prevent the unauthorized disclosure of its own confidential information, but no less than a reasonable degree of care. Further, the Contractor will advise Customer Agency in writing of any misappropriation or misuse of the Confidential Information of which the Contractor becomes aware. The Contractor is liable for any breach by it or its employees. Modification, alteration, breakdown, disassembly or reverse engineering of any Confidential Information is prohibited without prior written consent. Confidential Information is the property of the original disseminator. Derivatives and improvements are property of the disseminator of the Confidential Information from which the derivative improvement arises.

ARTICLE 3 CONFIDENTIALITY PERIOD
The Parties understand and agree that their obligations under this Confidentiality Agreement shall continue in effect in perpetuity or until such time as the Information becomes general public knowledge through no fault of their own.

ARTICLE 4 EXCEPTIONS TO CONFIDENTIAL INFORMATION
Confidential Information does not include information that is: (a) already in the Recipient's possession without obligation of confidentiality; (b) developed independently, or (c) publicly available when received, or subsequently becomes publicly available through no fault of the Recipient.

ARTICLE 5 REQUEST FOR DISCLOSURE OF INFORMATION
If either of the Parties is requested or required (by oral questions, interrogatories, requests for information or documents, subpoena, civil investigative demand, other process, or an order issued by a court or by a local, state or federal regulatory or administrative body) to disclose Confidential Information, each agrees to immediately notify the other of the existence, terms and circumstances surrounding such request or order; consult with the other on the advisability of the owner of the Confidential Information taking steps to resist or narrow such request or order, and refrain from opposing any action by the owner of the Confidential Information to obtain an appropriate protective order or other reliable assurance that confidential treatment will be accorded the Confidential Information.

ARTICLE 6 RETURN/DESTRUCTION OF CONFIDENTIAL INFORMATION
Upon the written request of the Customer Agency, the Contractor shall: (a) return all Confidential Information in whatever form; (b) destroy or delete the Confidential Information and all copies, reproductions, summaries, analyses, or extracts thereof based on the Confidential Information that it cannot return; and (c) certify in writing that it has complied with this section. Upon the request, such destruction will be certified in writing under penalty of perjury by an authorized employee who supervised the destruction thereof. Notwithstanding the return or

destruction of the Confidential Information, the Contractor and its employees shall continue to be bound by the obligations hereunder.

ARTICLE 7   REMEDIES FOR BREACH

In the event of any violation or threatened violation of this Agreement by the Contractor, the Customer Agency shall be authorized and entitled to petition the Court for injunctive or other suitable judicial relief, as well as judgment for all of its damages, costs and expenses, including but not limited to, attorneys' fees and costs.

ARTICLE 8 MISCELLANEOUS

This Agreement will be binding upon and for the benefit of the Parties, their successors and permitted assigns. The Contractor may not assign its rights or delegate its duties or obligations under this Agreement. Failure to enforce any provision of this Agreement will not constitute a waiver of that or any other provision. If a court of competent jurisdiction holds any part of this Agreement invalid, illegal or unenforceable, the validity, legality or enforceability of the remaining provisions will not be affected. This document contains the entire agreement between the Parties with respect to its subject matter and supersedes any previous understanding, commitments, or agreements, oral or written. All additions or modifications to this Agreement must be in a writing signed by all Parties and referring expressly to this Agreement. The headings in this Agreement are for reference only and shall not affect interpretation of this Agreement.

ARTICLE 9   NOTICE

Any notice required or permitted to be given under this Agreement shall be in writing and personally delivered or sent by electronic means provided that the original of such notice is sent by certified United States mail, postage prepaid, return receipt requested, or overnight courier with signed receipt, to the party to whom the notice should be given at their business address listed herein. ITS' address for notice is: Mr. David L. Litchliter, Executive Director, Mississippi Department of Information Technology Services, 301 North Lamar Street, Suite 508, Jackson, Mississippi 39201. The address for the Customer Agency is: INSERT NAME, TITLE, & ADDRESS OF CUSTOMER AGENCY FOR NOTICE. The Contractor's address for notice is: INSERT NAME, TITLE, & ADDRESS OF CONTRACTOR FOR NOTICE. Notice shall be deemed given when actually received or when refused. The parties agree to promptly notify each other in writing of any change of address.

ARTICLE 10 GOVERNING LAW

This Agreement shall be construed and governed in accordance with the laws of the State of Mississippi and venue for the resolution of any dispute shall be Jackson, Hinds County, Mississippi.

For the faithful performance of the terms of this Agreement, the parties hereto have caused this Agreement to be executed by their undersigned authorized representatives.

*Google Message Security – Google Message Security does not have a list price for the service because of how their reseller program is set up. Resellers provide support to their own customers, and have to build the cost of the support into our fees, so Google does not provide a list cost for the service with reseller support. I put N/A in the List Price and Discount fields for these items.							
*Cisco Items with Cisco Smartnet Support – per the amendment document's instructions we have included the cost for 8x5xNBD smartnet with the Cisco hardware items. There was a large difference in the discounts we could offer on the hardware and smartnet, so we have listed both levels of discount in each line item in order.							
*Ironport – We have to apply for pricing on Ironport items on a case by case basis, so the cost submission spreadsheet reflects a low discount, which is the best discount we can guarantee at this time. We anticipate being able to provide much better discounts when working with the customers on a case by case basis.							

*1-Firewall, 2-Intrusion Detection, 3- Intrusion/Monitoring Prevention, 4-Email/Web, 5- Data/Encryption, 6-Host Based, 7-Security Mgt, 8-Security/Risk Assess, 9-Application Assess, 10-Authentication, 11-Data Loss Prevention

Product Name/Description	CAT*	MFG #	Manufacturer	License Type	List Price	Discount %	Cost to State
purchased first. Includes 2500 EPS, expandable to 10,000 EPS with license (QR-2.5K-1601-UPG), includes dedicated event storage of 2TB and standard maintenance.							
2500 EPS Incremental Upgrade Three 2500 EPS licenses can be added to a single 1601. Maximum EPS Rate for a 1601 is 10,000 EPS. 7 2500 EPS licenses can be added to a single 1605. Maximum EPS rate for 1605 is 20,000 EPS. Includes Standard Maintenance	7	QR-2.5K-1601-UPG	Q1 Labs	SW	$69,500.00	10%	$62,550.00
To upgrade a 3100 Server to a Distributed 3100 Console, Flows and Events must be offloaded to an Event or Flow Processor Appliance. This appliance can be used to process flows or events previously processed by the 3100 Server. Example Scenario: Upgrading a 3100 Server with 5000 EPS and 100,000 flows to a 3100 Distributed Console with 7500 EPS and 100,000 Flows.	7	QR-3100-UPG-APP	Q1 Labs	SW	$23,480.00	10%	$22,306.00

*1-Firewall, 2-Intrusion Detection, 3- Intrusion/Monitoring Prevention, 4-Email/Web, 5- Data/Encryption, 6-Host Based, 7-Security Mgt, 8-Security/Risk Assess, 9-Application Assess, 10-Authentication, 11-Data Loss Prevention

Vendor: Venture Technologies							
Product Name/Description	CAT*	MFG #	Manufacturer	License Type	List Price	Discount %	Cost to State
Solution: Purchase the QE-3100-UPG-APP to offload processing of Flows. Purchase 1601 to offload processing of 5000 EPS already on the 3100. The 1601 comes with 2500 EPS which will bring the total EPS limit to 7500 EPS. Includes Basic Maintenance							
VFlow Collector For VMWare ESX and ESXi VFlow is a virtual Flow collector appliance which performs network flow analysis of traffic between virtual hosts providing application layer traffic monitoring and security intelligence in a virtual infrastructure. VFlow supports the following: VMware ESX 3.5 and ESXi 3.5 Supports up to 10,000 flows. Supports monitoring 4 virtual interfaces. Requires 512MB of RAM	7	QF-900-00	Q1 Labs	SW	$2,500.00	5%	$2,375.00
10Gbps QFlow Collector - 10GBase-SR 850nm Aggregate speed=1Gbps -Interfaces Include 1 10/100/1000baseT Copper Interface	7	QF-1310SR-00	Q1 Labs	HW	$54,160.00	10%	$48,744.00

Barracuda Web Filter 810 with 1 Year EU; 1Year IR and Premium Support	4	BYF810a	Barracuda	Appliance	$42,696.00	10%	$38,426.40
Barracuda Web Filter 910 with 1 Year EU; 1Year IR and Premium Support	4	BYF910a	Barracuda	Appliance	$59,796.00	10%	$53,816.40
Xangati Management Dashboard: Standard Dashboard Virtual Appliance for up to 40 Separately licensed Xangati for ESX processors 2000 identities for reporting	7	XMD-S	Xangati	Appliance	$5,998.00	13%	$5,218.26
Xangati Management Dashboard: Enterprise Dashboard Virtual Appliance for up to 100 Separately licensed Xangati for ESX processors; Flow processing from physical switches and routers; 5000 identities for reporting, behavioral profiling and alerting	7	XMD-E	Xangati	Appliance	$11,998.00	13%	$10,438.26
Xangati Management Dashboard: Enterprise Plus Dashboard Virtual Appliance for up to 1000 Separately licensed Xangati for ESX processors; Flow processing from physical switches and routers; 20,000 identities for reporting, behavioral profiling and alerting;	7	XMD-EP	Xangati	Appliance	$23,998.00	13%	$20,878.26

*1-Firewall, 2-Intrusion Detection, 3- Intrusion/Monitoring Prevention, 4-Email/Web, 5- Data/Encryption, 6-Host Based, 7-Security Mgt, 8-Security/Risk Assess, 9-Application Assess, 10-Authentication, 11-Data Loss Prevention

Vendor: Venture Technologies							
Product Name/Description	CAT*	MFG #	Manufacturer	License Type	List Price	Discount %	Cost to State
Accessory Kit containing sliding rack rails, (2) power cords							
Xangati Starter Kit - 20 Xangati for ESX processor Licenses; Xangati Management Dashboard	7	XMD-SK	Xangati	Appliance	$11,998.00	13%	$10,438.26
Xangati Remote Object Viewer - 100 Concurrent remote object viewers (Requires Xangati Management Dashoard: Enterprise or Enterprise Plus	7	ROV-100	Xangati	Appliance	$5,998.00	13%	$5,218.26
Identity Pack - Additional 10,000 identities; Requires Xangati Management Dashoard: Enterprise Plus	7	ID-10K	Xangati	Appliance	$5,998.00	13%	$5,218.26
Xangati for ESX - Virtual Appliance for (1) ESX Processor	7	X-ESX	Xangati	License	$299.00	13%	$260.13
Cisco IronPort C160 Email Security Appliance with Anti-Virus,Virus Outbreak Filter, ENCR, Data Loss Prevention-- 100- 249 Mailboxes	4,11	EBUN-1A-GV-SQRTV-1Y	Cisco/ Ironport	Appliance + Annual Subscription/per user	$70.35	10%	$63.31
Cisco IronPort C160 Email Security Appliance with Anti-Virus,Virus Outbreak Filter, ENCR, Data Loss Prevention- 250-499 Mailboxes	4,11	EBUN-1A-GV-SQRTV-1Y	Cisco/ Ironport	Appliance + Annual Subscription/per user	$49.91	10%	$44.91
Cisco IronPort C160 Email Security Appliance with Anti-	4,11	EBUN-1A-GV-SQRTV-1Y	Cisco/ Ironport	Appliance + Annual	$38.84	10%	$34.95

*1-Firewall, 2-Intrusion Detection, 3- Intrusion/Monitoring Prevention, 4-Email/Web, 5- Data/Encryption, 6-Host Based, 7-Security Mgt, 8-Security/Risk Assess, 9-Application Assess, 10-Authentication, 11-Data Loss Prevention
